D5.2 Initial Mechanisms to preserve privacy (IMT)

D5.1 Initial ethical framework (ISP)

D6.2 Cybersecurity framework (SIV)

D6.3 Operational framework - concepts of operations (STF)

D5.3 Ethical framework (IMT)

D5.2 Mechanisms to preserve privacy (IMT)

D6.4 Operational framework - implementation guidelines (SIV)

**Practitioner's guides**

PG on Ethics

PG on Cybersecurity

PG on Operations

A-Z

A-Z

"Concept map"/TOC, Intro for explaining the 3 PGs,
their different elements, how they were developed/used in the project

D7.4 Report on the use of the frameworks (STF)

**Core principles for organising materials/work:**

* All of the core content is in the individual boxes above, it is developing these where we apply most of our work

* They are mostly developed independently

* They can use different formats, to suit purpose

* The items formally delivered to the commission as PDF for "deliverables" mostly just point to the different components
